

Peanut Policy Form

This is a REMINDER that our center may have children enrolled that have peanut allergies. You will be notified if someone in your child's class has peanut allergies.

We regard ALL health issues seriously, and try to keep children with allergies safe. We ask that if someone in your child's classroom has peanut allergies, that you do NOT send any item to school that contain NUTS. This is a voluntary request.

We ask that all parents of children with food allergies to please be sure to speak with our Director if you have any questions regarding the food we serve for morning and afternoon snack. Some items we serve may have been processed in facilities that also process items with nuts, wheat, gluten, etc..

If you prefer your child to have some snack items and not others, we recommend that you provide ALL snacks from home to avoid any confusion.

Thank you for your understanding and cooperation.
